### ACTIVITY REPORT 18.11.2022

#### **Interactive Session on 'Spoken English Proficiency' in Association with the English Language Academy**

---

Yashoda Technical Campus, Faculty of MBA, MCA & B. Pharmacy organized an Interactive session on 'Spoken English Proficiency' to test the student's capabilities and boosting their level of spoken English.

Students of Professional courses need to improve the spoken English in order to match the global standards. Language is our primary source of communication. It's the method through which we share our ideas and thoughts with others. Some people even say that language is what separates us from animals and makes us human.

There are thousands of languages in this world. Countries have their own national languages in addition to a variety of local languages spoken and understood by their people in different regions. Some languages are spoken by millions of people, others by only a few thousand.

English may not be the most spoken language in the world, but it is the official language of 53 countries and spoken by around 400 million people across the globe. Being able to speak English is not just about being able to communicate with native English speakers; it is the most common second language in the world. If you want to speak to someone from another country then the chances are that you will both be speaking English to do this.

Recognizing the importance of English in today's world, Yashoda institute has taken initiative to know the areas of improvement in students with respect to this subject.

Interactive Session on Empowerment of Citizen through Legal Awareness in association with Satara District Bar Association, Satara

---

Yashoda Technical Campus, Satara organized an Interactive Session on Empowerment of Citizen through Legal Awareness in association with the Satara District Bar Association, Satara. Adv. Rajashri Sawant was the resource person for this interactive session. The Purpose of this interactive session was to make students familiar with the rights and duties of being an Indian citizen. Article 39A of the Constitution of India gives a directive to the States to ensure that the operation of the legal system does promote justice on a basis of equal opportunity. It directs the State to provide free legal aid with the aid of suitable legislation (such as the National Legal Services Authority Act) or schemes and ensure that opportunities for securing justice are not denied to any citizen for reason of economic or other disabilities.

Legal Aid is the provision of assistance to people otherwise unable to afford legal representation and access to the court system. The institute's Foundation believes that certain community groups, if sensitized through proper interaction and guidance, can play a crucial role of active agent in the transformation of the society. Programs organized under this project will be towards promoting consciousness among and building capacity of various community groups about legal culture, legal processes, legal resources and effective use of the legal systems. This project is all about spreading legal literacy and socio-economic justice through awareness workshops and legal aid camps. So every individual, whether literate or illiterate, whether male or

Some of the above investments are fixed-income while others are market-linked. Both fixed-income and market linked investments have a role to play in the process of wealth creation. While market-linked investments help in navigating the volatility and in the process generate high real return, the fixed income investments help in preserving the accumulated wealth so as to meet the desired goal.
