Maharashtra Day

YSPMs Yashoda Technical Campus, Satara celebrated Maharashtra Din on 1st May 2023. Maharashtra Day is a significant day for the people of Maharashtra, as it marks the formation of the state on 1st May, 1960. It is a day of great pride and joy for the people of Maharashtra, who celebrate it with enthusiasm and fervor. This year the event was graced by the appearance of Mr. J. G. Jadhav who guided students and the gathering on Maharashtra Din. He was welcomed at the hands of Hon. President Dasharath Sagare.

Maharashtra Day has a rich history that dates back to the early 20th century when the idea of a separate state for Marathi-speaking people was first proposed. The Samyukta Maharashtra Movement, which began in the late 1950s, was a significant milestone in the struggle for a separate state. The movement led to the formation of Maharashtra and Gujarat as separate states on May 1, 1960. Maharashtra Day, therefore, holds great significance as it represents the culmination of a long and hard-fought struggle for a separate state.

Maharashtra Day is celebrated with great enthusiasm and fervor throughout the state. The day begins with the hoisting of the national flag, followed by parades and cultural programs. People dress up in traditional attire and participate in various cultural events, including folk dances and music performances. The celebrations are a testament to the rich cultural heritage of Maharashtra and the pride that the people of the state feel for their traditions.

AN EXTENSION ACTIVITY OF CLEANLINESS BY THE INSTITUTE

On the occasion of 'SHIV JAYANTI' (February 19, 2020) Yashoda Technical campus has organized an event of cleanliness at Char Bhinti area Satara. Main intention behind this program is Swacha Bharat, Clean Bharat. All the staff members and the students enthusiastically participated in the cleanliness program.

Cleanliness is most important for physical well-being and a healthy environment. It has bearing on public and personal hygiene. It is essential for everyone to learn about cleanliness, hygiene, sanitation and the various diseases that are caused due to poor hygienic conditions. Why Is It Important to Clean the Environment? A clean environment ensures the continual existence and survival of all life on Earth. Cleaning the environment reduces pollution, protects unique ecosystems, prevents the extinction of endangered species and conserves resources, such as water, land and air. All the staff and students approached to Char Bhinti area Satara, travelled through College Bus. All are well equipped with broom and other cleanliness equipments. The staff members and students swept the floor of Char Bhinti area. Also they picked up small waste of plastics; waste papers existed in the Char Bhinti Campus. Students also cleaned the walls of Char Bhinti area. They erased the unnecessary paintings on monument of Char Bhinti Area .

Environmental cleanliness can be enhanced by cleaning the mess created around us regularly, avoiding plastic bag usage, not littering the road by throwing the garbage, effective disposal of used water, adopting reusing and recycling techniques and always monitoring the pollution levels. All the staff and students cleaned the waste and fired the waste of plastic bags and buried the waste in the side by waste dig. All the staff and students made an oath to maintain the clean and green environment in the society as well as in Campus.

Cleanliness is an important quality of life. In fact, it is a habit which is often considered just next to godliness. Cleanliness is a habit not related to the wealth of a person, rather it is a habit which depicts the qualities a person is enriched with. Since health is wealth, cleanliness prevents diseases, promotes good health and thereby preserves our wealth. It maintains discipline at all levels. It promotes self-respect and self-confidence of the family, institution, city and country. A clean environment gives a cheerful mind to improve and progress.
